STADIUM SEAT

Prima[®]

www.primaseat.com

- ▶ Produced from original raw material.
- ▶ There is no any scrap raw material used inside the seat and also there is no any additive added to the seat to make the seat more heavy. Making the seat heavy is not an advantage it is a disadvantage, because if your seat is durable you do not need to make it durable, but if your seat is not durable you need the additives to make it durable by making it heavy.
- ▶ In order to make the seat more resistant to the external factors, UV stabilizer is used.
- ▶ In order to avoid discoloration, colour fastness is used in maximum level.
- ▶ With TS EN 12727 certificates and our company has ISO 9001:2015 Quality Management System according to TUV cert.
- ▶ Due to the usage of original raw material, the colours of our seats are bright and shiny.
- ▶ Have orthopedic seating feature, which is comfortable for both the back and legs.
- ▶ The front part of the Stadium Seats designed in a way that, seats can not be pulled out from the seating area.
- ▶ Due to the seats water discharge canal, water is not accumulated on the surface of the seats. Water discharge canal passes the water in parallel with the canal, by preventing the contact of water with the mounting screws.
- ▶ Back rest is internally reinforced and with double wall..
- ▶ In case it is demanded the mounting holes of our seats can be produced with the metal thimble. Due to not having any benefit except of it's cost enhancing feature, we do not use metal thimble in our products.
- ▶ The specifications of the seats vary from the physical conditions of the usage area.
- ▶ According to our customer requests, our seats can be produced with UV Stabilizer Additives, Flame Retardant Additives, Colour Fastness Additives and Impact Resistant Additives.
- ▶ That's why the products were designed for using in the concrete tribunes, in case of using in the different floor (for example; metal construction etc.) please make contact with us about technical issues before using.
- ▶ ISO 14001:2015 Environmental Management System, ISO 45001:2018 Occupational Health and Safety Management System.
